

Dear Hiring Manager,

I am excited to apply for the Senior Software Engineer position at ECCO Gulf Majorel Qatar. With over five years of experience in software development, specializing in .NET Core, C#, and backend architecture, I am eager to contribute to your team's success.

In my previous roles, I have designed and implemented scalable and high-performance backend services using .NET Core, integrating efficient API solutions with SQL Server, PostgreSQL, and MongoDB. My expertise extends to cloud-based development with Azure, incorporating Azure Functions, Logic Apps, and API Management (APIM) to optimize performance and security. Additionally, I have experience developing cross-platform mobile applications using Kotlin and Flutter.

Beyond backend development, I have proficiency in Python scripting, enabling me to work closely with data scientists to deploy machine learning models into production environments. My ability to implement Python scripts for AI workflows, optimize data processing, and integrate intelligent systems into software solutions aligns with your requirements.

I thrive in Agile environments and excel in problem-solving, debugging, and performance optimization. I am eager for the opportunity to bring my skills and experience to ECCO Gulf Majorel Qatar and discuss how I can contribute to your innovative projects.

Thank you for your time and consideration. I look forward to your response.

Best regards,

Faruq Akintunde Odetola
